

Driving Directions to Leghorn & Barred Rock Casitas

From South (Albuquerque)

- From the airport, get on **I-25 North**, and follow signs to Santa Fe.
- Before you get to Santa Fe, look for **US 599 North – Santa Fe Relief Route. Exit.**
- Drive North on US 599 to its end where you will stay in your left lane and merge on to **US 285/84 North to Espanola and Taos.**
- Once in Espanola the road number **changes into US 68. Do not make any turns. Do not follow signs to continue on 285.** Just **continue driving straight north through Espanola on US 68.**
- About 15 minutes north of Espanola the road will turn into a single lane and you'll be driving along the Rio Grande up toward Taos.
- Once you enter the Taos area, count your traffic lights and come to the **third traffic light** at the intersection of US 68 and **Paseo del Canon.** (Chevron Station on the right)
- Make a **LEFT** at this intersection on to **Paseo del Canon West.**
- Drive a short distance, past a stop sign to the **end of the road** as it intersects **Camino Del Medio.** Make a **RIGHT.**
- Drive less than a **quarter of a mile** and look for a **street sign** on your **left side -- CALLEJON RD.**
- Make a **LEFT** onto **Callejon.** Callejon is a dirt road (sometimes bumpy – so take it slow) that takes a couple of dogleg turns and makes its way through our valley. There are no houses on the right side of the road until you cross the valley – maybe a quarter of a mile or less.
- **Casa Gallina's Leghorn & Barred Rock Casitas** are the **fourth house** on the **RIGHT** side of the road. Look for the number **613** on the fence post and the sign for **Casa Gallina.** (You'll pass my house and The Bantam Roost first, which is a sandy colored adobe compound with a sign that has a rooster on it at 609 ... don't pull in this driveway... keep going two driveways further on your right and you'll see another sign, which is more visible coming from the opposite direction, so it's easier to look for the number 613 on the fence post coming from this direction -- the sign can be seen over your right shoulder just as you're passing the drive)
- Park facing into the fence on the left side of the lot.
